MODERN CRIMES, MODERN TRAINING, MODERN INVESTIGATIONS.

A must-take class for investigators and crime analysts!

This two-day course provides attendees with a practical foundation in identifying, preserving, and analyzing digital evidence in modern criminal investigations. Attendees learn how everyday technology creates evidence and how to preserve and collect it. The program covers mobile devices, cellular records, social media, cloud data, ISP and email records, connected vehicles, surveillance systems, WiFi networks, OSINT, device attribution, and more.

Required Equipment:

- Laptop w/ WiFi capability
- Free software - instructions provided after registration
