

High-Impact Cellular Records Reporting (HIRR)

Level III | Advanced Course

June 19, 2026

9:00 A.M.—5:00 P.M.

Central Standard Time (CST)

LIVE ONLINE

This course provides investigators, analysts, and expert witnesses with the skills to transform complex cellular records analysis into clear, defensible reports, with powerful demonstratives. Attendees will explore how to organize and interpret call detail records, integrate mapping and timeline visuals, and apply best practices for documentation and testimony. Through real-world examples and guided exercises, participants will gain the confidence to present effective cellular records evidence.

Course Topics:

- Report structure
- Methodology
- Report versus demonstratives
- Case law and procedures
- Report templates
- Peer review

Required Materials:

- Laptop or desktop with internet access
- Pre-installed CASTViz or analysis program
- External mouse (recommended)
- Additional monitor (recommended)
- Microsoft Excel and PowerPoint

Tuition information:

\$275.00 per person
