COURSE INCLUDES

- Certificate of completion
- Digital course materials
- Free & open-source toolkit
- Hands-on practical exercises

— ABOUT THIS COURSE

This two-day, entry-level course gives investigators, analysts, and attorneys a foundational understanding of tower dumps and area searches — the difference between them, how to leverage the data, and how to construct efficient, effective search warrants. Day two adds a full session of hands-on practical exercises and records analysis using freeware tools.

— PREREQUISITES

None. TDAS-FW is an entry-level (Level I) course, open to anyone new to tower dump and area-search investigations.

— WHO SHOULD ATTEND

Investigators, analysts, and attorneys who work with cellular location data and want practical, hands-on skills using freely available tools.

— REQUIRED EQUIPMENT

- Computer with internet access, microphone & camera
- Pre-installed freeware (instructions sent after registration)
- Modern web browser (Chrome recommended)

— COURSE TOPICS

- Tower Dumps vs Area Search
- Search-warrant construction
- Legal considerations
- Location selection & strategies
- Provider records & considerations
- Records analysis with freeware tools

2 DAYS
Now with a full freeware lab day
